## 1. Introduction

Section guidelines:

- a) List of the team members, allocation of tasks (student 1 to 4), and topic of the website.

Website Topic: Ceylon Camping

Student 1 - Presentation Page & product page

Student 2 - Main Page & Query Form

Student 3 – Quiz & Student details

Student 4 – Diagram SVG & Thumbnail images

b) Include the summary table of your contributions to the group meetings.

Group Coursework Meetings (minimum 6 meetings, e.g., one per week)			
1	Date & Time	2 March 2022 (Online)	
	Objective:	To agree with the website topic and assign students roles	
	Attended:	All students	
	Your Contribution:	Suggesting topics in tourism	
2	Date & Time:	5 March 2022 (online)	
	Objective:	Designing the home page	
	Attended:	All students	
	Your Contribution:	Suggested color theme	
3	Date & Time:	10 March 2022 (online)	
	Objective:	Updating the university server	
	Attended:	All students	
	Your Contribution:	Presentation page and Product Page updation.	
4	Date & Time:	14 March 2022 (online)	
	Objective:	Sharing the completed part of each students work	
	Attended:	All students	
	Your Contribution:	completed presentation page	
5	Date & Time:	16 March 2022 (online)	
	Objective:	Designing the 2 <sup>nd</sup> part of each students work	
	Attended:	All students	
	Your Contribution:	Product page designing	
6	Date & Time:	18 March 2022 (online)	
	Objective:	Progress meeting	
	Attended:	All students	
	Your Contribution:	Presenting ideas regarding the layout of the product page	
7	Date & Time:	21 March 2022 (online)	
	Objective:	Progress meeting	
	Attended:	All students	
	Your Contribution:	Helped to solve problems related to HTML	
8	Date & Time:	24 March 2022 (online)	
	Objective:	Finalizing the website	
	Attended:	All students	
	Your Contribution:	Completed and shared the product page and presentation page	

## 2. Technical Discussion

Student 1:

- Presentation Page
- Buy products

(All students) Page Editor Page, Main (Home) Page, Extra content page relevant to topic.

The purpose of this project was to develop a full website relevant to a specific topic out of a few given ones. The area that was chosen here in this project report is Tourism specifically Camping. The tasks that have been done by student 1 is discussed in this section.

The tasks include designing and development of the Presentation Page, Product Page, Editor's Page, Additional Content page and certain design related parts of the main page. Almost all these pages use HTML, CSS and JavaScript.

### Presentation Page

Here the Main Home page will appear 4 seconds after opening the presentation page. This was done by including the code below in the head section of the .html document:

```
<meta http-equiv="refresh" content = "4; url=..\Mainpage\WEBCWMAINHTML.html">
```

The data in the presentation page include the Title, Logo of the website, Names of the group members and the editor's page.

### Main Page

Ideas related to the page layout and details to be included were put forward.

### Product Page

Product page is mainly divided into few sections such as:

1. All Products
2. Individual Products
3. Cart
4. Checkout Form
5. Invoice

The product page contains several pages:

1. All Products, Cart, Checkout Form, Invoice – included in one page
2. Individual products – 4 pages

All these pages are connected using anchor tags and href attributes.

## 1. All Products section

Connected to the navigation bar using the id="mainproductpage".  
Four products have been placed in one line

Classes explained

<div class="keepinline"> - keep all items horizontally in one line by using

display: flex;

align-items:center;

flex-direction: row;

<div class="shop-item"> -Groups each item

<div class="small-container"> - Gives padding, margin and width of each shop-item.

max-width used so that all products have the same width and fit the screen size.

<div class="row"> - keeps the specific item in one line

<div class="col-4"> - controls the properties of the shop item image and the text of it including width, margin and image transform is used with hover effect to translate the image in the Y axis at -5px and the smoothness in motion is given by including transition: transform 0.5s;

class="shop-item-image" , class="shop-item-title", class="shop-item-price" are used in JavaScript when adding the image to the cart. This will be discussed in the cart section.

class="rating" and <i class="fa fa-star"> used to show rating of items using stars, fontawesome icon used here (<https://fontawesome.com/v4/icon/star>).

Add to cart button are given the class="btn btn-primary shop-item-button" here the btn btn-primary are used in css for styling the button and shop-item-button used in javascript to add the functionality.

```
/*-----add to cart button----- adds items-----
let addToCartButtons = document.getElementsByClassName('shop-item-button')
for (let i = 0; i < addToCartButtons.length; i++) {
  let button = addToCartButtons[i]
  button.addEventListener('click', addToCartClicked)
}
```

When the add to cart is clicked the item details are added to the cart

```
/*-----adds items to the cart-----
function addToCartClicked(event) {
  let button = event.target
  let shopItem = button.parentElement.parentElement
  let title = shopItem.getElementsByClassName('shop-item-title')[0].innerText
  let price = shopItem.getElementsByClassName('shop-item-price')[0].innerText
  let imageSrc = shopItem.getElementsByClassName('shop-item-image')[0].src
  addItemToCart(title, price, imageSrc)
  updateCartTotal()
}
```

ITEM	PRICE
 Dome Camping Tent	\$60.00
 Folding Chair	\$15.00

class="btn btn-primary btn-moredetails" opens the window which contains individual item details.

All above mentioned details are included in for all 4 products in the shopping page.

## 2. Individual Products section

<div class="small-container single-product"> - main product

<div class="col-2"> - enlarged image of the product and keeps small product images in place.

<div class="small-img-row"> - small images kept horizontally

<div class="small-img-col"> - each individual small images

class="small-img" used in javascript to replace the small image in the large images space (id="ProductImg") when clicked on the image.

```
let ProductImg = document.getElementById("ProductImg");
let SmallImg= document.getElementsByClassName("small-img");

    SmallImg[0].onclick = function()
    {
        ProductImg.src = SmallImg[0].src;
    }

    SmallImg[1].onclick = function()
    {
        ProductImg.src = SmallImg[1].src;
    }
    SmallImg[2].onclick = function()
    {
        ProductImg.src = SmallImg[2].src;
    }
    SmallImg[3].onclick = function()
    {
        ProductImg.src = SmallImg[3].src;
    }
```

<div class="col-2"> - stores product details

<div class="small-container">, <div class="row row-2">, <div class="small-container single-product">, <div class="row"> - used to make the related product section

```
<div class="small-container single-product">
<div class="row">

  <div class="col-4">
    <a href= "chair.html">
    </a>
    <h4 id="chair">Folding Chair</h4>
    <div class="rating">
      <!--https://fontawesome.com/v4/icon/star-->
      <i class="fa fa-star"></i>
      <i class="fa fa-star"></i>
      <i class="fa fa-star"></i>
      <i class="fa fa-star"></i>
      <!--https://fontawesome.com/v4/icon/star-o-->
      <i class="fa fa-star-half-o" ></i>
    </div>
    <p>$15.00</p>
  </div>
</div>
```

## Folding Chair

★★★★★  
\$15.00

### 3. Cart Section

class="container" used in styling the section which includes cart, checkout and invoice.

class="section-header" – styling the headings of the cart, checkout and invoice.

<span class="cart-item cart-header cart-column"> - used to give the column titles

cart-item – ITEM (name and image)

cart-price – PRICE

cart-quantity - QUANTITY

cart-row used in styling the cart row and in javascript to add a row whenever a product is added to the cart.

.cart-row {display: flex; padding: 20px;}

```
function addItemToCart(title, price, imageSrc) {  
  let cartRow = document.createElement('div')  
  cartRow.classList.add('cart-row')  
  let cartItems = document.getElementsByClassName('cart-items')[0]  
  let cartItemNames = cartItems.getElementsByClassName('cart-item-title')  
  for (let i = 0; i < cartItemNames.length; i++) {  
    if (cartItemNames[i].innerText === title) {  
      alert('This item is already added to the cart')  
      return  
    }  
  }  
}
```

If the same product is added the second time the system will give an alert message saying that the item has been added already.

The quantity of the specific item can be increased in the cart section.

Other than the cart-item-title, cart-item-image and cart-price in each cart row the input type number is used to add a section to increase the quantity of the item it's given using class="cart-quantity-input" and a remove button is given using button tag to remove the item added in the cart.

The button and the quantity change is done using  
 addEventListener('click', removeCartItem) and  
 addEventListener('change', quantityChanged)

```

/*-----content in cart rows-----add cart items and places order-----
let cartRowContents = `
  <div class="cart-item cart-column">
    
    <span class="cart-item-title">${title}</span>
  </div>
  <span class="cart-price cart-column" >${price}</span>
  <div class="cart-quantity cart-column">
    <input class="cart-quantity-input" type="number" value="1">
    <button class="btn btn-remove" type="button">REMOVE</button>
  </div>`
cartRow.innerHTML = cartRowContents
cartItems.append(cartRow)
cartRow.getElementsByClassName('btn-remove')[0].addEventListener('click', removeCartItem)
cartRow.getElementsByClassName('cart-quantity-input')[0].addEventListener('change', quantityChanged)
-}

```

## QUANTITY

3

REMOVE

1

REMOVE

The cart is updated every time:

Product is added

```
function addToCartClicked(event) {
  let button = event.target
  let shopItem = button.parentElement.parentElement
  let title = shopItem.getElementsByClassName('shop-item-title')[0].innerText
  let price = shopItem.getElementsByClassName('shop-item-price')[0].innerText
  let imageSrc = shopItem.getElementsByClassName('shop-item-image')[0].src
  addItemToCart(title, price, imageSrc)
  updateCartTotal()
}
```

Quantity modified

```
/*-----item quantity changed from cart-----*/
function quantityChanged(event) {
  let input = event.target
  if (isNaN(input.value) || input.value <= 0) {
    input.value = 1
  }
  updateCartTotal()
}
```

Product removed

```
function removeCartItem(event) {
  let buttonClicked = event.target
  buttonClicked.parentElement.parentElement.remove()
  updateCartTotal()
}
```

Function for cart updation

```
function updateCartTotal() {
  let cartItemContainer = document.getElementsByClassName('cart-items')[0]
  let cartRows = cartItemContainer.getElementsByClassName('cart-row')
  let total = 0
  for (let i = 0; i < cartRows.length; i++) {
    let cartRow = cartRows[i]
    let priceElement = cartRow.getElementsByClassName('cart-price')[0]
    let quantityElement = cartRow.getElementsByClassName('cart-quantity-input')[0]
    let price = parseFloat(priceElement.innerText.replace('$', ''))
    let quantity = quantityElement.value
    total = total + (price * quantity)
  }
  total = Math.round(total * 100) / 100 //rounding off to 2 decimal
  document.getElementsByClassName('cart-total-price')[0].innerText = '$' + total
}
```

Total here is rounded off to the 2<sup>nd</sup> decimal place.

#### 4. Checkout form Section

##### Validation

Name and email in the checkout form are validated when the Place Order button is clicked.

```
function Validation(myFormRef){
    let name = myFormRef.name.value;
    let email = myFormRef.email.value;

    if (name==" " && email==" "){
        alert("Name and Email must filled out");
    } else if ( email==" " ) {
        alert("Email must be filled out");
    } else if ( email.indexOf("@")==-1 ) {
        alert("Invalid Email");
    } else if ( name==" " ) {
        alert("Name must be filled out");
    } else{
        alert("Thank you for Purchasing");
    }
}

/*--text input fuction--*/
function check(){
    document.getElementById('namej').innerHTML = document.myform.name.value;
    /*find the document.getElementById('namej') in the page and change the inner html that is the html inside the tag with namej id and putt
    into it the value of the myform form of the document. */
    document.getElementById('e-mailj').innerHTML = document.myform.email.value;
}
```

## CHECKOUT

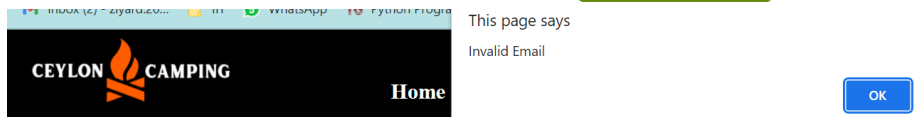

Name:

John

Email:

john@gmail.com

Place Order

## 5. Invoice Section

When the Place Order button is clicked the details in the checkout form is sent to the invoice as below:

[Visit Editor's Page](#)

This is done by using form input type text and email and validating them.

This function helps in loading the JavaScript file before the html file so that the functions run first.

```
/*-----check if page done loading-----  
  
if (document.readyState == 'loading') {  
    document.addEventListener('DOMContentLoaded', ready)  
} else {  
    ready()  
}  
  
/*-----removing item-----
```

## Additional content page

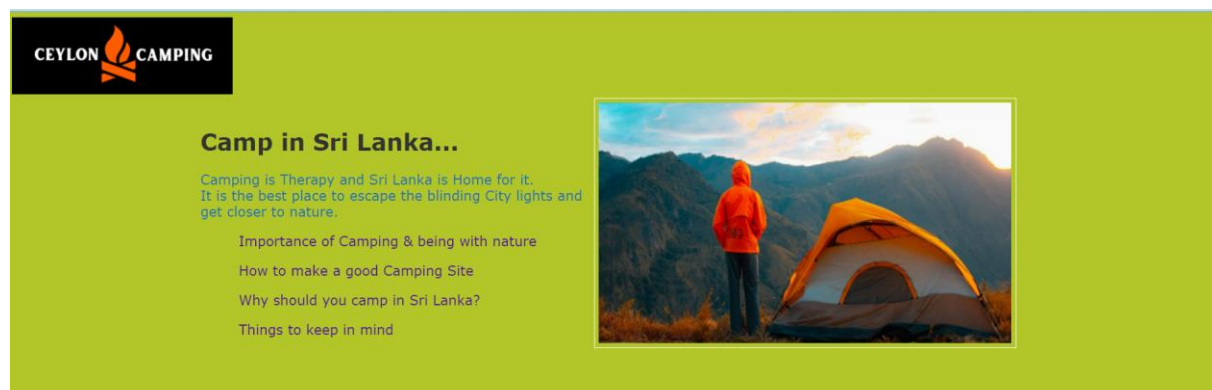

This page contains additional information on the website topic Ceylon Camping.  
It includes:

1. Importance of Camping & being with nature
2. How to make a good Camping Site
3. Why should you camp in Sri Lanka?
4. Things to keep in mind

This page includes an image slideshow where the class name mySlides is given to each image.  
Therefore, onclick the images are shown in order one after the other with 2 sec gap in-between.

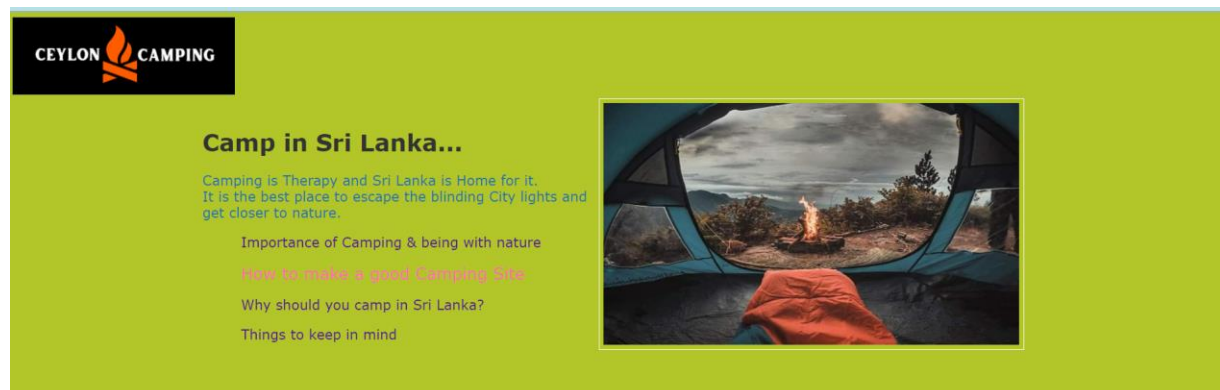

```
let slideIndex = 0;
showSlides();

function showSlides() {
  let slides = document.getElementsByClassName("mySlides");
  for (i = 0; i < slides.length; i++) {
    slides[i].style.display = "none"; //keep imgs in order
  }
  slideIndex++;
  if (slideIndex > slides.length) {slideIndex = 1} //helps in continuing the change
  slides[slideIndex-1].style.display = "block"; //shows the img block
  setTimeout(showSlides, 2000); // Change image every 2 seconds
}
```

## Importance of Camping & being with nature

Camping has many benefits whether you are 8, 18 or 80. After coming from a camping trip you will always feel the difference in you.  
Below mentioned are some of the main benefits of Camping:

## Importance of Camping & being with nature

Camping has many benefits whether you are 8, 18 or 80. After coming from a camping trip you will always feel the difference in you.  
Below mentioned are some of the main benefits of Camping:

### Camp in Sri Lanka...

Camping is Therapy and Sri Lanka is Home for it.  
It is the best place to escape the blinding City lights and  
get closer to nature.

Importance of Camping & being with nature

How to make a good Camping Site

Why should you camp in Sri Lanka?

Things to keep in mind

### Importance of Camping & being with nature

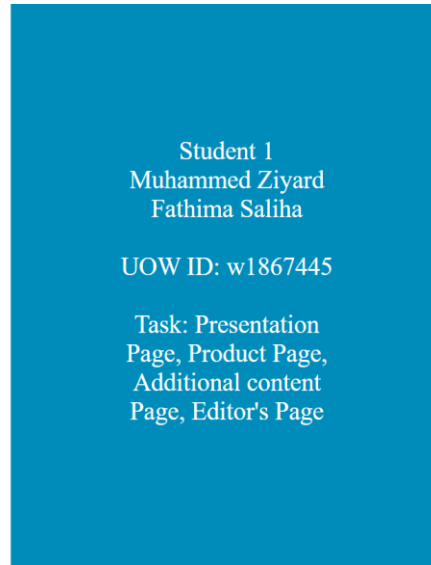

Camping has many benefits whether you are 8, 18 or 80. After coming from a camping trip you will always feel the difference in you.  
Below mentioned are some of the main benefits of Camping:

1. **Stress reduction:** Being with nature will heal you. It helps reduce anger, fear and stress. Nature can generate a multitude of positive emotions, such as

### Editor's page

Includes image, name, role and a list of the tasks completed. This page contains a hover overlay effect. When the pointer is above the image an area is shown which includes the above-mentioned details.

### Allocated tasks that were not completed

User viewing the summery of the order when Place Order button is clicked has not been completed.

### 3. Webpage Validation Statement

Web pages that were validated without any errors are:

1. Presentation Page
2. Buy Products
3. Editor's Page
4. Additional Content Page
5. Four sub-pages of the main product Page

### 4. Janet

Janet Regulations have been adhered in this Website as it doesn't transmit or create obscene or offensive material, it doesn't include hacking, or other deliberately disruptive activity, it doesn't transmit any unsolicited commercial or advertising material or any similar activities.

This website doesn't include the infringement of copyright and the transmission or creation of material of a threatening nature, or intended to harass, frighten anyone or anything and transmission or creation of material of a libellous nature is not done in this website.

Therefore, this website compiles and adheres with Janet Regulations.

<div class="sec-2">
    <h2 id="id1">Importance of Camping & being with nature</h2>
    <p>Camping has many benifits whether you are 8, 18 or 80. After coming from a camping
trip you will always feel the difference in you. <br>
        Below mentioned are some of the main benifits of Camping:</p>
        <ol><li><b>Stress reduction:</b> Being with nature will heal you. It helps
reduce anger, fear and stress. Nature can generate a multitude of
positive emotions, such as calmness, joy, creativity and can facilitate
concentration.</li>
        <li><b>Relationship building:</b> Camping helps you spend more time
with your family and friends without any distractions from the outside busy world.
It helps to build strong relationships.</li>
        <li><b>Physical fitness:</b> Exposure to nature not only makes you
feel better emotionally,
        it contributes to your physical wellbeing, reducing blood pressure,
heart rate, muscle tension, and the production of stress hormones.
        </li>
        <li><b>Development of new skills:</b> Camping will help you to
build a new skill every now and then. These skills are important to have, and yet
we don't often get a chance to develop them during the course of our
regular busy schedules.</li>
        </ol>

```

## How to make a good Camping Site

 alt="Camping" style = "float: left; margin-right: 10px; padding-right: 20px; width: 500px; height: 400px " >

Preparing a good camping site is the key to enjoy the time you spend. Listed below are the seven main tips for preparing a good camping site:

1. **Finding the Ideal Campsite** - Find a spot that is close enough to a water resource and make sure that it is an area with no wild animals.
2. **Set Up Your Tent** - The land to set up a camp should be generally flat and the tent should have a waterproof tarp or cloth down on the ground before you get to work fitting the poles together and stretching the canvas. Finally make sure prevent it from blowing away by setting it up properly. You can tie the tent down to nearby trees if it is too windy.
3. **Food Storage** - Keep non-perishable foods out of the cooler and in a canvas, paper or plastic bag, or if necessary a bear-proof container. Make sure to take enough food and water.
4. **Fire and Cooking Area** - Tip here is to make your own fire starters ahead of time by coating some cotton balls in petroleum jelly, store them in a small container for easy use.
5. **Get Your Camping Equipments ready** - make sure you have your tent, sleeping bag or a sleeping mat, camping lanterns or torch, first aid kit and folding chairs.
6. **Clothing and other personal items** - make sure you bring proper cloths with you as the climate could change during the time of your stay and make sure to wear good hiking boots to avoid sprains and strains.
7. **Add some extras** - The following can make your trip a complete experience:

- a camera
- a set of binoculars
- maps , books or field guides

## Why should you camp in Sri Lanka?

- Soak yourself in a continuous cycle of eating, sleeping, bathing and walking around; all within the campsite itself.
- Exclusive access to national park hotspots at times when animals are their own selves and day visitors are not around.
- Relax and be a part of the complete natural and wild experience.
- Go in search of wild animals at your own convenience.
- Camping does not have to be restricted to National Parks and a jungle surrounding. In Sri Lanka, there are interesting camping sites on the beach, amidst mountainous surroundings and amidst villages as well.

## Things to keep in mind

```

```

```
    <ul>
      <li>Campers must strictly abide by specific rules of the national park</li>
      <li>Do not litter on the campsite or any part of the park.</li>
      <li>Break trash down and take it home with you if there's no on-site
garbage</li>
      <li>Be prepared for medical & health issues</li>
      <li>Any harm caused to nature is a serious crime and will be dealt with
extreme prejudice.</li>
      <li>Always be respectful of the animals and the surroundings, don not
invade these creatures' space. </li>
    </ul>
```

```
    <div> <a href="../editorsPageS1.html">Visit Editor's Page</a>
    </div>
</div>
```

```
<script>
  let slideIndex = 0;
  showSlides();

  function showSlides() {
    let slides = document.getElementsByClassName("mySlides");
    for (i = 0; i < slides.length; i++) {
      slides[i].style.display = "none"; //keep imgs in order
    }
    slideIndex++;
    if (slideIndex > slides.length) {slideIndex = 1} //helps in continuing the change
    slides[slideIndex-1].style.display = "block"; //shows the img block
    setTimeout(showSlides, 2000); // Change image every 2 seconds
  }
</script>
</body>

</html>
```

## Camp in Sri Lanka...

Camping is Therapy and Sri Lanka is Home for it. It is the best place to escape the blinding City lights and get closer to nature.

- Importance of Camping & being with nature
- How to make a good Camping Site
- Why should you camp in Sri Lanka?
- Things to keep in mind

## Importance of Camping & being with nature

Camping has many benefits whether you are 8, 18 or 80. After coming from a camping trip you will always feel the difference in you. Below mentioned are some of the main benefits of Camping:

1. **Stress reduction:** Being with nature will heal you. It helps reduce anger, fear and stress. Nature can generate a multitude of positive emotions, such as calmness, joy, creativity and can facilitate concentration.
2. **Relationship building:** Camping helps you spend more time with your family and friends without any distractions from the outside busy world. It helps to build strong relationships.
3. **Physical fitness:** Exposure to nature not only makes you feel better emotionally, it contributes to your physical wellbeing, reducing blood pressure, heart rate, muscle tension, and the production of stress hormones.
4. **Development of new skills:** Camping will help you to build a new skill every now and then. These skills are important to have, and yet we don't often get a chance to develop them during the course of our regular busy schedules.

## How to make a good Camping Site

Preparing a good camping site is the key to enjoy the time you spend. Listed below are the seven main tips for preparing a good camping site:

1. **Finding the Ideal Campsite** - Find a spot that is close enough to a water resource and make sure that it is an area with no wild animals.
2. **Set Up Your Tent** - The land to set up a camp should be generally flat and the tent should have a waterproof tarp or cloth down on the ground before you get to work fitting the poles together and stretching the canvas. Finally make sure prevent it from blowing away by setting it up properly. You can tie the tent down to nearby trees if it is too windy.
3. **Food Storage** - Keep non-perishable foods out of the cooler and in a canvas, paper or plastic bag, or if necessary a bear-proof container. Make sure to take enough food and water.
4. **Fire and Cooking Area** - Tip here is to make your own fire starters ahead of time by coating some cotton balls in petroleum jelly, store them in a small container for easy use.
5. **Get Your Camping Equipments ready** - make sure you have your tent, sleeping bag or a sleeping mat, camping lanterns or torch, first aid kit and folding chairs.
6. **Clothing and other personal items** - make sure you bring proper cloths with you as the climate could change during the time of your stay and make sure to wear good hiking boots to avoid sprains and strains.
7. **Add some extras** - The following can make your trip a complete experience:
  - a camera
  - a set of binoculars
  - maps , books or field guides

## Why should you camp in Sri Lanka?

- Soak yourself in a continuous cycle of eating, sleeping, bathing and walking around; all within the campsite itself.
- Exclusive access to national park hotspots at times when animals are their own selves and day visitors are not around.
- Relax and be a part of the complete natural and wild experience.
- Go in search of wild animals at your own convenience.

- Soak yourself in a continuous cycle of eating, sleeping, bathing and walking around, all within the campsite itself.
- Exclusive access to national park hotspots at times when animals are their own selves and day visitors are not around.
- Relax and be a part of the complete natural and wild experience.
- Go in search of wild animals at your own convenience.
- Camping does not have to be restricted to National Parks and a jungle surrounding. In Sri Lanka, there are interesting camping sites on the beach, amidst mountainous surroundings and amidst villages as well.

### Things to keep in mind

- Campers must strictly abide by specific rules of the national park
- Do not litter on the campsite or any part of the park.
- Break trash down and take it home with you if there's no on-site garbage
- Be prepared for medical & health issues
- Any harm caused to nature is a serious crime and will be dealt with extreme prejudice.
- Always be respectful of the animals and the surroundings, don't invade these creatures' space.

## Appendix D: Individual Statement

Student Name:	Muhammed Ziyad Fathima Saliha	Student Id:	w1867445
State what tasks you carried out in the project.			
Design and Development of the Presentation Page, Buy Product Page, Additional Content page and the Editor's page			
State what you enjoyed and did not enjoy about teamwork.			
<p>Enjoyed – Work was more interactive, fun and was able to gain a lot more knowledge and understanding in the subject matter.</p> <p>Didn't Enjoy – Online meetings and Online discussions were not that affective compared to physical methods.</p>			
State what you learnt about teamwork.			
<p>Working together as a team is much more creative because the final product will have different ideas put together in a better way to find the solution.</p> <p>Refine understanding through discussion and explanation.</p>			
State what skills you gained/learnt from undertaking the project.			
<p>Socializing</p> <p>Work as a team in the online environment</p> <p>Understand the subject matter more by exchanging information.</p>			
State any strengths about yourself that emerged whilst undertaking the project.			
<p>Ability to Socialize and work together</p> <p>Creativity and flexibility</p>			
State any weaknesses about yourself that emerged whilst undertaking the project.			
<p>Inability to complete certain parts in the project due to lack of time management.</p>			
State how you would do things better if you were to undertake the project again.			
<p>Would start the project a bit early and do it better by managing the time properly.</p>			
Additional general or project specific comments:
